

Fuel Filtration Product Offering Expansion

To meet the changing needs of our customers, Cummins Filtration will soon release several new fuel-water separators to complement our existing product offering. Today, Cummins Filtration offers open-ended replacement spin-on fuel water separators in which a clear bowl can be attached to the bottom. The new closed-ended spin-on filters are an alternative for our customers that do not require the additional features of the clear bowl. Although the appearance of the close-ended spin-on filters is slightly different, the performance and fuel-water separation functionality is the same.

New Closed-Ended Filter Option

Current Open-Ended Filter Option

The tables below shows a list of part numbers for the current open-ended filter option and the corresponding new closed-ended filter option.

Current Open-Ended PN	FS1287	FS19521	FS19547	FS1291
New Closed-Ended PN	FS19930	FS19930	FS19931	FS19932
New Product Availability Date	June 19, 2009	June 19, 2009	June 19, 2009	June 19, 2009

Current Open-Ended PN	FS19532	FS19593	FS19798	FS19591
New Closed-Ended PN	FS19932	FS19932	FS19933	FS19934
New Product Availability Date	June 19, 2009	June 19, 2009	June 19, 2009	June 19, 2009

We will continue to offer both the open-ended and closed-ended spin-on filters; however we will be consolidating three existing part numbers in order to simplify your inventory. These part number changes are reflected in the chart below:

Part Number to be Obsoleted	FS19845	FS19846	FS19847
New Part Number	FS19932	FS19930	FS19932
New Product Availability Date	June 19, 2009	June 19, 2009	June 19, 2009

To provide further product assistance, attached is an abbreviated competitive cross-reference guide:

Cummins Filtration New Closed-End FS Part Number	Cummins Filtration Current Open-End FS Part Number	Racor Open-End Part Number	Baldwin Closed-End Part Number	Wix Closed-End Part Number
FS19930	FS1287	R60P	BF1223	33411
FS19930	FS19521	S3225P	BF1348	33411
FS19930	FS19846	No Cross	BF1348	33411
FS19931	FS19547	R43	BF1345	33411
FS19932	FS1291	R71	BF1346	33412
FS19932	FS19532	R90P	BF1329	33411
FS19932	FS19593	S3226P	BF1346	33412
FS19932	FS19845	No Cross	BF1329	33411
FS19932	FS19847	No Cross	BF1346	33412
FS19933	FS19798	S3226T	BF1347	No Cross
FS19934	FS19591	R120T	BF1265	33780
