

Easy on.

Easy off.

Advanced polymer construction resists temperature extremes and impacts

Eliminates spud damage from cross-threading

Rugged crush-proof, corrosion-free design

One-way 1/2" socket for easy removal

Sure-grip surface with ribs for easy handling

Flat no-spill bottom

Introducing The User-Friendly Filter.SM

Slippery dome-shaped metal filters are tough to handle. But our user-friendly filter features a breakthrough design that helps eliminate spills and spud damage from cross-threading while our proven filter media protects your engine for the long run. Will be suitable for many on-highway and industrial applications. For details, visit our web site at www.fleetguard.com or check with your local Fleetguard distributor.
